SESSION PRICING &
BOOKING INFORMATION

2022

Welcome

Hi, I'm Lorna! This photo is of my Mum and me and one of only a few photos of us together. We lost her. She was 26. Soon after, I asked for a camera for my eighth birthday. Long before my three children were born, I truly understood the value of photography and the printed photograph.

Her Grandchildren

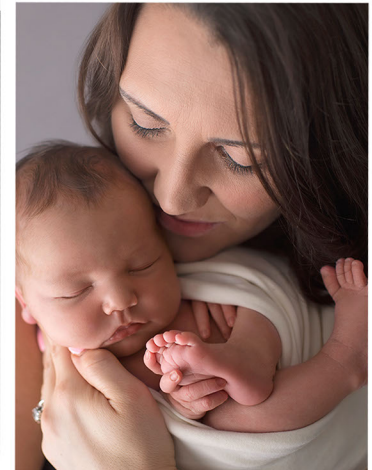

I have had the privilege of photographing families in and around South Wales Since 2011.

I hope to record all the joy and love that your family brings to you. Not just your likeness but your magical connections to each other. All those beautiful things that make up your story starting with your pregnancy; newborn art, a milestone like baby sitting unaided, and outdoor playful family photography. I want to capture your family grow and blossom; teeth falling out, new siblings, and give you the legacy of photographs every loving family deserves.

My session planner will help you plan for this day. Don't worry, I have patience and experience with babies. I have worked with premature twins, babies with down syndrome, broken bones due to difficult birth and cleft palates. Your baby is in safe hands and held as if they were my own.

The Mini Session

The mini session is ideal for parents that want a few professional portraits of their newborn. For these photo sessions, I allow one hour.

- Images 1-3 are newborn only; choose between the “potato sack pose” seen above or three of the “basket pose” see examples on the booking page where the baby is wrapped like a bean in a basket.
- Image 4 is of both parents or a parent, and baby, as seen above.
- Image 5 is of a parent, baby and a sibling.

If a baby has no sibling, we take another parent shot. Shy siblings and some toddlers may take longer, and in this case, I recommend a full session.

During the first week of your newborn's life, you may forget to book a photoshoot due to the demands of being a new parent. After the first two weeks babies can lose hair and get a lot bigger, so it's wise to book your photoshoot when you are pregnant. **Booking ahead** will ensure that I am available when your baby arrives; Dad is off work and free to help and be photographed with you, and most importantly, I will photograph your baby at the **best age, 5-12 days old**. I photograph older newborns, but some babies can get baby acne, colic and get too big for some props and poses.

I save one day near your due date and one about a week after it. Once the baby arrives, we decide on the best one. If baby arrives unexpectedly, we can reschedule.

Once your baby is born, please text within 24-48 hours and let me know your baby's gender and weight so we can get planning!

WHAT'S INCLUDED

- 1 hour photo session in my cosy home studio near Llantrisant.
- Use of my vintage props that include wraps with matching headbands & hats.
- Pre-session clothing guidance and session details help your session flow well.
- Photoshop retouching of up to 5 portraits that you select on the day of the shoot.
- Five high-quality digital files for you to print yourself sent via wetransfer.
- Opportunity after your session to view exclusive and beautifully crafted wall art, frames, prints available to purchase additionally.

MINI PACKAGE FEE - £350 Covers the cost of the photoshoot and editing up to 5 images. One set-up, 3 newborn portraits, 1 parent portrait, 1 sibling/parent portrait.

Perfect Presentation

Displaying your portraits on the wall for all to enjoy is not only decorative but love affirming and celebratory. It makes us feel safe, happy, loved, and it reminds us of our best days. I think that professional photography is a necessary investment that sometimes gets delayed or forgotten time after time until one day, the little ones have grown up and begun families of their own. I am here to provide for you lasting memories of the fleeting stages in your children's journey to adulthood.
